

Bobcat E10E

£POA

The E10e has a state-of-the-art Lithium-Ion, maintenance-free battery pack with an advanced management system, designed to fit within the standard machine envelope to maintain the machine's ZTS profile.

Following the daily working routine, the E10e can operate throughout a full 8-hour day, using operator breaks to recharge the battery. Using an external super-charger functionality, the battery can be recharged to 80% of battery capacity in less than 2 hours. The battery can also be
