INTRODUCTION

▶ BOBCAT'S HISTORY

In 1958, Melroe Manufacturing Company introduced a compact front-end loader that evolved quickly into the M400, the world's first true skid steer loader. The company soon adopted what became the world-famous 'Bobcat' brand – and its success paved the way for the global compact equipment industry we know today.

▶ CONTINUOUS INNOVATION

New technologies and machines are rigorously tested in our innovation facilities to take on the toughest jobs.

▶ BOBCAT TODAY

Since introducing our first compact track loader in 1999, the new category quickly gained popularity thanks to Bobcat's decades of experience building compact loaders to the highest standards.

OUR MISSION

We empower operators to accomplish more, while working in the toughest conditions and tightest situations. When our customers have the will, we provide the way.

FEATURES B4501710-EN (11-20)

BUILT FOR ALL CONDITIONS

TOUGHNESS MEETS INNOVATION

Using decades of experience developing the toughest loader on the planet, we added a host of improvements and smart technology to increase durability, boost performance, and bring first-class comfort to the all-new R-Series loaders.

Attachments are automatically leveled when moving up or

down thanks to dual bucket

positioning

Steel casting design for greater visibility LED lights with optional Premium LED Optional side LED lights without compromising durability with corner view Clear-view cab option for advanced visibility Auto Ride Control option provides lift arms dampening effect Cast steel arms for better visibility while keeping the outstanding durability Improved cooling for improved performance and reliability Compatible with a full range of over 100 attachments thanks to standardized Bob-Tach™ technology 5-link torsion suspension for smooth all-terrain ride One-piece cast upgraded Bob-Tach™ with integrated debris shredder

STABLE AND STRONG

Outstanding lift capacity with high pushing and breakout forces, complemented by excellent machine stability.

BUILT TOUGH

One-piece cast steel loader arms and upgraded Bob-Tach™ with integrated debris shredder are designed for the most challenging conditions.

FIRST CLASS COMFORT

5-link torsion suspension provides a smooth ride, while connectivity options and soundproof cab make staying in touch easy.

IMPROVED VISIBILITY

New cab construction is optimized for maximum visibility, further expandable by clear-view cab or rear-view camera options.

POWER WHERE YOU NEED IT

▶ GENTLE WHEN REQUIRED

The tracks' low ground pressure allows travel over sensitive areas. Increased traction ensures grip in mud or on unprepared sites and improves productivity with ground-engaging

▶ TRULY ALL-TERRAIN

The R-Series' weight distribution and optimized footprint allow travel and work in places where other machines cannot go uneven terrain, trenches or inclines up to 35%.

OUTSTANDING PERFORMANCE

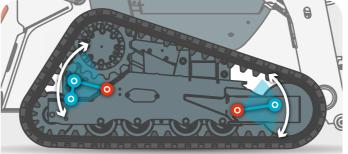

▶ IMPROVED COOLING

The R-Series' smart cooling system has been completely redesigned for optimal operation and uptime. The fan is almost 50% bigger and comes with a reversible option, increasing productivity in dirty conditions.

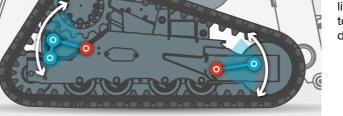

▶ INCREASED LIFTING CAPABILITIES

With more surface area in contact with the ground and a perfect balance between weight and horsepower, the R-Series features outstanding stability and enough lift capacity for any job site.

5-LINK TORSION SUSPENSION

The R-Series undercarriage provides more stability when lifting or grading as well as a smoother ride, thanks to its 5-link torsion suspension. This simple and durable design also reduces vibration to further improve component life.

STEP INSIDE

▶ CLEAR-VIEW CAB

The optional clear side enclosure adds thick polycarbonate side windows with abrasion-resistant coating – maximizing your visibility and ensuring the best possible view of tracks and corners.

▶ INTUITIVE TOUCH CONTROLS

Take control of all settings with the optional glove-sensitive 7-inch display. New display is waterproof and scratch resistant.

▶ ADVANCED CONNECTIVITY

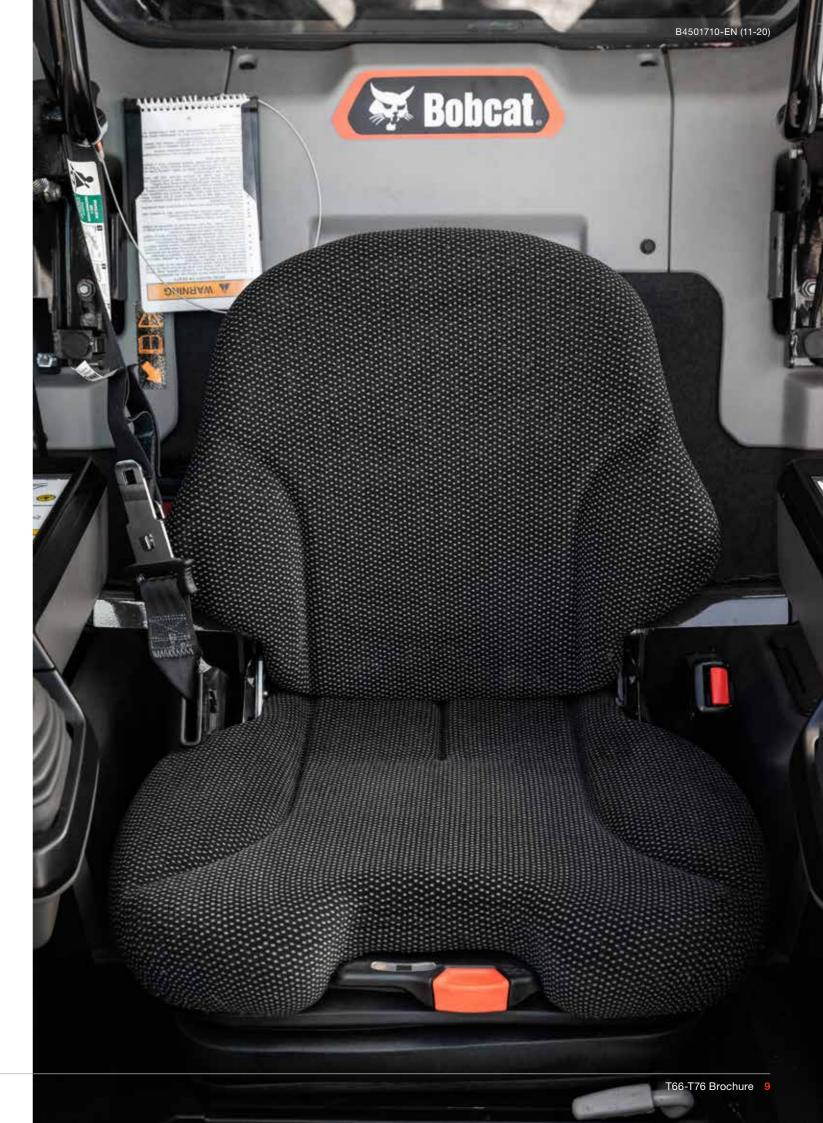

Connect your phone – thanks to the integrated Bluetooth – and enhance your comfort during calls or play your favorite music.

▶ PERFECT SEAT

Comfortable suspension seat as standard, and optional cloth heated air-ride seat, for maximum comfort all day – and all year – long.

SERVICEABILITY & WARRANTY B4501710-EN (11-20)

BUILT TO LAST

DOUTSTANDING UPTIME

The R-series has been developed with a special focus on durability and uptime -- featuring many small improvements that, together, help minimize maintenance and protect your machine: self-diagnostics, machine shutdown protection, battery run-down protection, cold weather protection, improved lubrication and access to greasing points, improved protection of hoses, and more. Additionally, R-Series track loaders feature long-lasting tracks and a reliable undercarriage, which further increase uptime and give you added peace of mind.

EXTENDED SERVICE INTERVALS

R-Series loaders feature a new fuel filter with more than double the media surface area, protecting the system even better and greatly extending the life of the filter. The improved engine design also significantly lengthens the air filter's life. This and other features allow you to improve efficiency and reduce operating costs, thanks to extended service intervals. Bobcat recommends first service after 500 hours of operation.

MACHINE 10

BOBCAT® Machine IQ Wireless Communications enhances the support for your Bobcat machine.

- Durable built-in monitoring electronics
- Data is available to our machine monitoring specialist
- Maintenance is optimized for your business
- Data-driven services maximize uptime

STANDARD WARRANTY

Bobcat develops every machine to the highest standards of quality and durability. That's why our standard warranty provides 24 months or 2000 operating hours (whichever occurs first) of cover-

THERE'S NO TIME FOR DOWNTIME. **STAND UP TO THE** HARSHEST CONDITIONS. DAY AFTER DAY.

▶ PROTECTION PLUS EXTENDED WARRANTY

Enjoy total peace of mind with Protection Plus® extended warranty. Providing the same level of protection as the standard warranty, Protection Plus also reflects different customer needs and expectations by offering a choice of durations and annual operating hours. According to your needs, you can benefit from the coverage for up to 5 years or 6000 engine hours. And Protection Plus is transferrable - so it will likely increase your machine's resale value.

▶ BOBCARE

A long-running machine starts with proper planned maintenance, which helps protect against repair costs and unplanned failures when you're counting on your machine to work.

- Avoid risk by preventing major repairs and complete failures.
- Accomplish more by reducing downtime and increasing your productivity and profitability.

T66

COMPACT YET POWERFUL

Equipped with the same dependable engine as its bigger brother, the T66 packs a surprising punch in its compact footprint and a lift capacity of 1086 kg.
